Supporting local schools by bringing short assemblies which are:

- Engaging and fun
- Creative and lively
- Inspiring and interactive

Each assembly is an opportunity for pupils to share in an act of collective worship that is educational, relevant and age appropriate.

Our assemblies also fulfil legal requirements for a daily act of collective worship which reflects the broad traditions of Christian belief without being denominationally biased.

## About Splash Assemblies

Our assemblies are a creative mix of short drama skits, songs, puppets, prayers and reflections. Each assembly includes a challenge for the children, asking them to consider a practical response to the things we have thought about.

Our topics reinforce values and attitudes which schools wish to promote and which encourage a sense of community spirit.

Themes over the past few years have included:

- Listening
- Self control
- The Queen's Jubilee
- Enthusiasm
- Small but Significant

We also provide seasonal assemblies (Easter, Harvest etc).

Each assembly lasts around 20 minutes and include opportunities for interaction and participation for the children.

We invite feedback and evaluation from teachers, pupils and governors on the quality and impact of our assemblies.

## Other Resources

### Prayer Spaces for Schools

We have a range of resources and equipment available for schools who would like to set up interactive reflective areas. Based on the "Prayer Spaces in Schools" network, these enable children and young people to explore faith and spirituality in a safe, creative and interactive

way. We can work with schools to adapt resources for participants aged from 5-15.

### Year Group Specific Activities

We can provide lessons, discussion groups or assemblies which are adapted to target specific year groups and particular school themes.

### Transition Workshops

We offer workshops for Year Six classes to support the transition from primary to secondary school.

Using the Scripture Union book "It's Your Move", we have devised a 90 minute interactive session, exploring the feelings that young people might be experiencing, how to cope with change, maintaining and forging new relationships and general concerns about the move to a new school.
